- Application of algae and herbal mixture to facilitate deep detoxification
- 45 minute infrared body wrap treatment
- Post session results evaluation
- \$25 voucher to use on Ideal Weight Loss for healing Program

We live in a very toxic world. Medical research confirms that accumulated toxins in the human body are responsible for fatigue, weight gain and multiple health problems.

The infrared body wraps are regarded as one of the most powerful way to facilitate the detoxification by releasing impurities and toxins, reduce the appearance of cellulite, shed inches and stimulate weight loss.

Our infrared therapy is a unique total body system.

Your infrared body wrap session at Lifestyle and Weight Loss Centre starts with an initial consultation that includes the evaluation of your lifestyle and toxicity score as well as your body composition analysis.

The treatment begins with an application of algae and herbal extracts mixture designed to tone, reduce cellulite and detoxify your entire body. You are then “wrapped” for 45 minutes in a temperature-raising infrared blanket. Increased body temperature activates sweating process and gently and safely increases metabolism and blood flow thus facilitating the deeper detoxification, while....burning calories.

You will see results just after one treatment and because effects are cumulative, over time of using infrared wraps you may experience dramatic changes.
